Bill –

Every year the BB-RSDA, which represents the entire Bristol Bay commercial driftnet fishing fleet (2,000 members), conducts a public meeting at the Pacific Marine Expo in Seattle.

Since one of the Association's major thrusts is salmon sustainability and since EPA is in the midst of a Watershed Assessment in BB, we would like to invite you to briefly update Bristol Bay commercial fishermen on where EPA is in the process, timeline and future steps (hearings, peer reviews, etc and etc). I'd expect that such a presentation would take about 10-15 min with a similar amount of time for a few questions.

The meeting is on November 17 at Qwest Field starting at 2:30p.

Thanks very much,

Bob Waldrop
